

**Class Name: Intensive Reading**  
Block 3 (11-11:55)  
Fall & Spring 2019-20

**Tutor:** Lara Mashburn  
**Email:** LaraLMashburn@gmail.com  
**Cell Phone:** 321-693-7028

**Grade Level:** 5th-7th

**Course Description:** Are you looking for a class designed to provide extra support for your student in reading and writing? Does your child read a story and mispronounce or miscue when decoding words, guess at harder words by looking only at the initial sound, have difficulty recalling details from the passage, and/or struggle with spelling and writing skills?

Reading Intensive is designed for students that need additional assistance with word decoding, reading fluency, reading comprehension, spelling, writing complete sentences and paragraphs with the goal of working toward reading and writing on grade level by the end of the school year. I will incorporate Orton-Gillingham's phonetic approach to word decoding, as well as whole language philosophical techniques while working with your children (memory work, reading repetition, choral reading, reader's theater, kinesthetic tools etc.).

This is not designed for emergent readers, but rather for students that need additional support with reading and writing skills to bring them up to grade level.

No more than four students will be allowed in the class at one time to allow for maximum benefit of participants. Students will work at a quick pace, in a positive, nurturing setting. Homework outside of class is anticipated to take approximately one hour per day, plus an additional amount of time devoted to independent/free reading time.

For class participants, I will schedule an evaluation time prior to the school year to assess specific instructional needs and determine supplies required. There will be a reader/literature anthology, workbook, and spelling book for daily assignments.
