

**Class Name: Digital Photography-
Lightroom Editing**
Block 1 (9-9:55)
Spring, 2019

Tutor: Sonia Clarkston

E-Mail: beachmomof6@gmail.com

Cell Phone: 321-960-9806

Grade Level: 9th-12th

Course Description: In this course, students will learn how to use one of the most versatile and powerful photo editing programs available, Adobe Lightroom. Students will also learn about different image file formats and the benefit of “shooting in RAW” when editing photos.

THIS IS A ONE-SEMESTER COURSE (.5 Credit)

Prerequisites: Intro to Digital Photography – (Fall Class)

Textbook:

Adobe Lightroom 6/CC Video Book: Training for Photographers by Tony & Chelsea Northrup
ISBN 978-0988263499 (Kindle & iBooks Version also available)

OR

IF YOU ALREADY HAVE Lightroom 5 installed on your computer you may use...

Adobe Photoshop Lightroom 5 Video Book: Training for Photographers by Tony & Chelsea Northrup

ISBN 978-0988263482 (Kindle & iBooks version available)

Supplies Required: Students must have Lightroom editing software installed or subscription to cloud-based service. (<https://www.adobe.com/products/photoshop-lightroom/compare-plans.html> ~\$10/month) They will also need their own digital cameras (DSLR only, must have RAW image capabilities. NO CELL PHONE OR POINT-N-SHOOT CAMERAS PLEASE...Contact Tutor for information or suggestions. They should have a camera from the required prerequisite class); compatible memory card(s) and batteries for camera; access to the internet.

Optional Supplies: USB flash drive (4 GB or larger), camera case for storage/protection; UV filter to protect DSLR lenses (highly recommended); memory card adapter for computer if no compatible slot; instruction book/manual specific to your camera and/or photo editing software.

- **Monthly Class Cost:** \$8.00 per week
