Grade Levels: 5th-8th

Class Description: Can you find Italy on a world map... because it looks like a boot? Be able to find ALL countries as easily with the Visualize World Geography method. The VWG method replaces the outline of each country with an easily recognizable object, like Italy as a boot. We call these country-objects "pictographies."
This method is fast and long lasting—

What to expect: Super FUN and silly way to learn all the countries (and capitals) of the world. We will work one day a week in class and expect to do about 1/2 hour - 1 hour each day for homework.

1 Year Access to Online video lessons: \$45.00

*When you register for this class, I will get your email addresses and contact you when we all can log in to the curriculum (Usually the first week of class)

Author: Theresa Blain www.visualizeworldgeography.com

Supplies needed: Colored pencils, 3-ring one-inch binder with dividers to hold loose papers

- **Monthly class cost:** \$8.00 per week
- **Materials Fee:** \$30.00

Maximum # of students— 15

Minimum # of Students— 5
