

**Class Name: God vs Socialism:
A Personal Testimony**
Block 3 (11:00-11:55)
Fall and Spring 2024-25

Tutor: Francisco Trujillo

Grade Level: 7th-12th

Class Description: This course is designed to introduce middle and high school students to one of the most absurd and destructive ideologies that humankind has been facing for centuries around the world, and its origin from eliminating God the creator and faith from people life. The course is structured by lectures and videos in an historic sequence, using the life testimony of the teacher, an immigrant and political refugee from Cuba, born in 1959, the same year the Socialist Revolution of Cuba was established by force. His life for 35 years in that opprobrious social and political system is compared with his life in America for 30 years as a Christian, an American citizen and Pastor. Every stage of his life, from childhood to senior Pastor, is used to describe and compare both systems in Cuba and the United States, and to prepare and alert the new generation about the dangers that we face in the United States.

The course examination will be based on short periodical investigative research by the students, so there is not a specific book as a principal text. The course is going to be used to introduce the student to the process of research and writing papers. The Holy Bible will be used as the only text for spiritual explanation and solution for every topic taught in class.

Materials Fee: \$20.00 per year

Maximum # of Students: 20

Minimum # of Students: 5
