

Tutor: Jenny Dixon

Class Name: Saxon Algebra 2

Grade Levels: Grades 9-12

Class Description: Saxon Algebra 2 is the completion of algebra. This course covers uniform motion, chemistry-related problems, simultaneous equations with 2 and 3 variables, non-linear equations, geometry, right-triangle trigonometry, conversion from rectangular to polar coordinates, addition of vectors, complex numbers, quadratic formulas, and much more.

What to Expect: Students can expect about an hour to an hour and a half of homework daily. Students should have their work graded and correct their errors daily before moving onto the next lesson. The best learning takes place when we correct our errors. This is a crucial step to gaining a full understanding of the material. In addition to class instructional time, I provide videos with extra practice problems for the student to view on an unlisted YouTube channel. If your child is still struggling with a problem after viewing the provided video for that lesson, please feel free to email or text me.

Prerequisites:

Placement test: <https://www.sonlight.com/homeschool/curriculum/placement-tests/saxon-placement-tests/> Please monitor your student while they are taking the placement test, and email test results to jennyjdixon@gmail.com

Or completion of Algebra 1 class with a C or better with me as their instructor.

Textbook/Author/Publisher:

Saxon Algebra 2, Third Edition ISBN-13: 978-1565771406

Saxon Algebra 2, Third Edition, Solution Manual ISBN-10: 1565771435

Students should not have access to the solution manual, it is for parents use only.

Supplies Required:

ruler, protractor, compass, notebook and graph paper, scientific calculator

Materials/Lab Fee: \$25/semester

Step Up: YES
