

Tutor: Trish Akouka

Class Name: Zoology 1

Grade Levels: Grades 5-7

Class Description: Exploring Creation with Flying Creatures of the Fifth Day. During this course, your young student will learn all about the world's flying creatures. Through the study of ornithology, chiropterology, and entomology, they will discover the design and characteristics of birds, bats, and bugs: their physical attributes, flight patterns, diets, nesting and environment requirements, and more. We will do the experiments and hands on activities at co-op.
